

# WORKER LOW

N2114M

BLACK

The lightweight protective shoe for those on their feet all day! This shoe is breathable and safe with a lightweight and comfortable toe cap, antistatic protection to minimise the build up of electrostatic charges, PU Comfort footbed for cushioning and moisture management and EVA midsole for lightness and to help reduce foot, leg and lower back fatigue. Outsole: Anatomical design for superior traction on slippery surfaces with abrasion resistance and exceptional durability as well as providing heat resistance to 300°C and oil resistance properties.
